

BVP CHANGE MAKERS

INTRODUCTION

"Unleash the power of innovation in the pursuit of change, where Darwinism meets creativity, and ideas evolve into a brighter future."

The idea of BVP Changemakers was initiated on 7th October 2022 by Ms. Inayat Kapoor-school's alumina-with just a simple text message to our Madam Principal Smt. Gulshan Kaur in which she talked about the initial concept of BVP Changemakers. Within a few weeks, the first meeting of BVP Changemakers was conducted; under the wise guidance of Headmistress Ms Anita Ranjan, we have shaped it from a niche idea to a functional and active project in less than a year.

The "one of a kind" quality of our organisation is that we don't focus on one particular is that we don't focus on one specific area of change-making. Our organisation promotes the inclusivity of ideas, and any student who has an applicable solution for a community concern can start their project with us under the sagacious guidance of our faculty. Our current projects include waste collection, mental health advocacy, menstrual hygiene advocacy, donation drives, etc.

At Bhavan Vidyalaya Panchkula, we wholeheartedly embrace those who speak and embody their beliefs, fostering a culture of unwavering support for true changemakers.

BVP CHANGE MAKERS
