Annie and magical powers

Once there was a fairy named Chutki who lived with many other fairies in the fairy world. They then got a chance to visit Earth for a month's time. They really enjoyed the natural beauty of earth and loved making friends. Of the many friends that Chutki made on Earth, Annie and two of her friends were the ones most fascinated by the fairies' powers. So, at the time of leaving Earth, Chutki gave Annie and her two friends, some magical powers. Annie and her friends were too excited to get those powers. Chutki and other fairies then left for the fairy world. Life was going very nice for the three girls, then one day Annie misused the magical power and everything in her life went bad. She was unable to understand anything. So, her friends asked her to visit Chutki in the fairy world. She did so. Then Chutki asked her if she at any point in time misused her magical powers. Annie narrated the entire story. Chutki then said that I didn't tell you about this. But if anyone misuses the powers, then darkness takes over and everything goes bad. She said that all your magical powers have vanished now and for the next one year you will have to pay the price for this. Annie will have to help numerous people to get rid of this curse, and also magical powers will never come back to her. But she will have a happy life later.

Annie did so and learnt the lesson of never misusing any sort of powers and helping others. Her life became normal after one year and she lived happily ever after.

Shimla Trails Shimla, the capital of Himada Bradesh is a beautiful hill station It has many forest trails where you can hike and took. Some of the trails are The trail to Sangti, the trail to Gren, and the trail to Indian Institute of Advanced Studies CITAS), While walking on these traits you can observe different types of flora and fauna. Recently I went on some of

these trails I saw varieties of consequences trees like the pines and decolors. I also come across firs, oaks and had about pines and deaders are that they have needle like lasses. These are very tall trees with numerous fine cones. I collabol, few of them while wolking on these tools, I also spotted animals like mankeys and langues. The forest also has leopands. I noticed many trids like pheasants and the whistling thrush.

I learnt a lot while walking those trails.

Animals are amazing builders

Home is very important for everyone- humans as well as animals. There are many animals who put in great effort to make their homes which are beautiful and fascinating. Let's learn about home of some of these animals:

- 1. Nest of weaver bird: The weaver bird makes one of the most beautiful and intricate nests. The fibres of the nest are interlaced like weaves. The nest is very strong architecturally and is waterproof. It has a doorway which is wide enough to allow the bird to go inside but small for the predators to come in. There is a special egg chamber inside the nest which hangs from the branch.
- 2. Web of spiders: The spider's web is made of silk which is made by special organs in the spider's abdomen. The silk is very strong but thin and light. The design is such that it takes minimum silk and time to make the web. The shape of the web can be round, triangular, spherical, rectangular etc. The spider uses different kinds of silk to make different parts of the web.
- 3. Sleeping platforms by Great apes: Great apes like chimpanzees make sleeping platforms to rest comfortably. They use strong branches which have small leaves and interweave them together. They build several layers of their nest so as to protect them from rain. The nest can support weight between 30-60 kg. The shape of the platform is such that it allows them to rest in a relaxed position. Thus, the homes of these animals protect them from all kinds of danger and gives their young ones an opportunity to begin their adventures in life.

Story Time

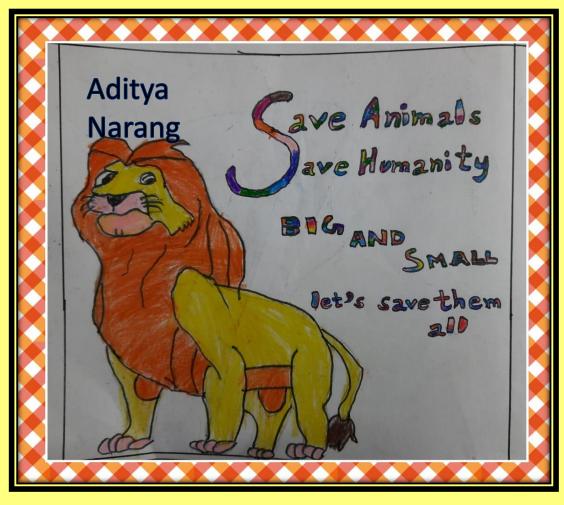

THE FARMER AND THE WOLF A farmer was looking for a source of water for his farm. He bought a well from his neighbour. The neighbour was cunning and refused to let the farmer take water from the well. On asking why, he replied, "I sold the well to you, not the water", and walked away. The distraught farmer didn't know what to do. So he went to Birbal, a clever man and one of the nine courtiers of Emperor Akbar, for a solution. The emperor called the farmer and his neighbor and asked why the man was not letting the farmer draw water from the well. The cunning man said the same thing again, "I sold the well, not the water. So he cannot take my water". To this, Birbal replied, "All that sounds fine to me. But if you have sold the water and the water is yours, then you have no business keeping your water in his well. Remove the water or use it all up immediately. If not the water will belong to the owner of the well". Realizing that he's been tricked and taught his lesson, the man apologized and left. MoralCheating will not get you anything. If you do cheat, you'll pay for it soon enough
